## EDUCATION

Bachelor of Technology (B.Tech) -  
Computer Science and Engineering  
Charusat University (Pursuing)

## SKILLS

### Programming Languages:

- ✓ Java (Intermediate)
- ✓ Dart (Intermediate)
- ✓ HTML (Intermediate)
- ✓ CSS (Intermediate)

### Development Tools & Platforms:

- ✓ Android Studio (Competent)
- ✓ Visual Studio (Competent)
- ✓ GitHub (Competent)
- ✓ Canva (Skilled)
- ✓ Figma (Skilled in UI/UX Design)

## About Me

I am a dedicated and motivated Computer Science and Engineering student at Charusat University, passionate about software development. Through coursework and personal projects, I have developed proficiency in multiple programming languages and tools. I am committed to continuous learning, problem-solving, and developing innovative solutions.

## EXPERIENCE & PROJECTS

### Learning & Development

- ✓ Gaining hands-on experience in software development through coursework and personal projects.
- ✓ Enhancing UI/UX design skills using Figma and CSS.

### PROJECTS

**FlavorSphere** – FlavorSphere is a Flutter-based app for nutrient and calorie tracking, featuring recipe analysis, user accounts, dark mode, and secure Firebase authentication.

**Charusat News Portal** – Currently working on Charusat News Portal, a web-based platform providing university updates, with Firebase-powered backend integration for data storage and user authentication.
